DETAILED ACTION

Oath/Declaration

The oath/declaration filed on 6/20/2003 is acceptable.

Specification

The specification has been checked to the extent necessary to determine the presence of all possible minor errors. However, the applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Reason for allowance

Claims 1- 8 are allowed. The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the claimed Optical connector module for connecting between a transmission/reception source circuit and an optical fiber having an wafer registration guide pin inserted between the first V-groove of the optical. transmission/reception wafer and the second V-groove of the optical waveguide wafer, and sandwiched by the first V-groove of the optical transmission/reception wafer and the second V-groove of the optical waveguide wafer, for positioning and fixing the wafers, when the wafers are brought close to each other for

interconnection, thereby registering the-optical transmission/reception end of the optical transmission/reception section and the optical transmission/reception end face of the optical waveguide, of the wafers, with each among other limitations as claimed in independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
